

Fuel Surcharge

Quality Transportation & Logistics Fuel Surcharge Policy

<https://www.eia.gov/petroleum/gasdiesel/>

The amount of the fuel surcharge shall be a percentage of the net line-haul freight charge (base rate less discount) and will increase and decrease weekly with the fluctuation of the U.S. Department of Energy's National Average diesel fuel cost per gallon. The fuel surcharge will be adjusted on Tuesdays, based on the fuel Index of the prior Monday. Below is a chart that breaks down the cost, and what the surcharge will be in dollar amounts, and what percentage will be applied to the freight bill.

National Average	Applicable Surcharge
At least	LTL
1.00	1.00%
1.05	1.50%
1.10	2.00%
1.15	2.50%
1.20	3.00%
1.25	3.50%
1.30	4.00%
1.35	4.50%
